Product Description

RedMax Articulating Hedge Trimmer LRTZ235

Leave the ladder in the truck and grab the LRTZ235 articulating hedge trimmer to tackle large bushes or small trees with ease. With its ergonomic, light-weight design and higher fuel capacity over competitive models, your crew will be able to comfortably work all day with fewer trips to the trailer for refueling. In addition, the 24" blade has 10 locking positions to make it easy to trim professional looking hedges. At the end of the day, simply pull down the locking mechanism to unlock the blade and fold it to 0-degrees for safer transport to the next jobsite.
